NEWS LETTER

2022
NOVEMBER

International Day of the Girl Child | Class Saathi

On December 19, 2011, United Nations General Assembly adopted Resolution 66/170 to declare October 11 as the International Day of the Girl Child, to recognize girls' rights and the unique challenges girls face around the world. In the constant support that Class Saathi strives to provide in the public school domain we celebrated the International Day of the Girl Child with a **100 EVERYDAY CAMPAIGN**.

IN 2022 CLASS SAATHI ONBOARDED

100 THAT IS MORE THAN
GIRL STUDENTS
EVERYDAY **29,000**
GIRL STUDENTS!

INTERNATIONAL
DAY
of the
Girl Child

Class Saathi Success Story

Every month, we will celebrate a success story stemming from classrooms across India. This month we have Varij Kapoor, a Pre Secondary School teacher from Chandauli, Uttar Pradesh. He has been a pivotal example of making education more accessible to students and believes that Class Saathi can make a huge difference in reducing education inequity.

Q. As a teacher, has Class Saathi made a difference in your teaching and how students learn the subjects?

Michael, Team Class Saathi

A. I'm from an IT background and spent a decade in a petroleum company before I became a teacher.

I believe my biggest strength in the classroom is effective engagement of students.

Ever since I started using the Class Saathi app, I have seen a drastic change in the way students are learning. Now, my students, on average get only 2-3 incorrect answers in a test because they have been using the Class Saathi app to prepare themselves.

Instant access to assessment insights helps me categorize students, determine their weak points, and support them on their learning journey.

I have observed tremendous improvement in their knowledge and conceptual understanding of topics. Class Saathi assessments have proven to be a great learning experience for all of us.

Varij Kapoor

Q. How did Class Saathi benefit your teaching? Please share an example from your classroom.

Michael, Team Class Saathi

A. Class Saathi is a user-friendly platform that is simple to use. I especially love the AI Quiz feature. These assessments help the students to know their learning levels.

While using the app, I felt connected with my students' progress. My interaction with them has also substantially increased. This has resulted in mutual trust between my students and me.

I have also observed an increase in attendance. The village I live in, saw the impact that Class Saathi had in students' learning and have started supporting and encouraging me to do more.

A few of my students used the Class Saathi app to prepare for national scholarship exams as well. They used all the self-help tools and assessments available on the student app and aced their exams! These students secured a good scholarship for which they will always be grateful to Class Saathi. This has paved their way to quality education.

We are thankful to Class Saathi for presenting us with this opportunity. I regret that I did not have the option of using Class Saathi during the pandemic. But, I'm glad we have it now as it is never too late to keep learning and growing.

Varij Kapoor

Q. How much would you recommend Class Saathi to other students and teachers?

Michael, Team Class Saathi

A. When I started using the Class Saathi app, people around me saw a difference in students' performances. Students using the app were *always one step ahead* when compared to others.

I remember this one time when a student's father came to me with a mobile phone and asked me if I could install the Class Saathi app so that his *daughters could also start learning* from it. That was the reach of this platform.

Using Class Saathi has helped me so much that I went on to personally get a few extra devices for my students who could not afford one. This way they could also study at home.

I have reached out to a few schools to make some teachers aware of Class Saathi's benefits. I would recommend Class Saathi to every teacher as *it's an empowering tool in the classroom*.

Varij Kapoor

Q. How was your experience throughout the usage of the app? Any differences from when you first started using it, up until now?

Michael, Team Class Saathi

A. My interaction with Class Saathi has been wonderful. The kind of experience the app provides including support from the Saathi team has been a gratifying experience.

Students have started becoming *independent learners*. They have begun seeing the value in the concept of self-studying through Class Saathi. They have developed a *strong desire for learning* now because of the interactive nature of the app.

Students' approach towards learning has changed. They don't wait for a teacher to assign them homework anymore. They have become self-reliable because of Class Saathi.

The reports feature in the app has proven to be quite useful. Based on the reports, students now *know the exact topic/sub-topic* that they need to focus on to improve their grades. And, that's exactly what they have been doing. Their scores have improved a lot. Truly "Solve More, Score More", haha!

Class Saathi has been a life changer when it comes to education. It has impacted a lot of our lives and transformed the future of the students. We will forever be grateful to Class Saathi.

Varij Kapoor

MONTHLY CHALLENGES

2022

Saathi Wali Diwali October Challenge (Students)

This past festive month, we asked our students to mark their attendance and quickly attempt a short daily contest. And guess what? We got the highest number of attendances and daily contests solved on Class Saathi!

MORE THAN
1300 DAILY ATTENDANCES AND CONTESTS
WERE SOLVED IN 20 DAYS.

WINNERS

2.
Saksham Goel

1.
Manju M

3.
Poonam Chouhan

Saathi Sanchayan Challenge (Teachers)

Mid-term exams had ended and festival holidays were right around the corner. So, to best utilise this time, without the pressure of teaching, teachers were asked to create Quiz sets that can be used post festivities. And again, records were broken!

MORE THAN
20 TEACHERS CREATED A WHOPPING **637**
QUIZ SETS

WINNERS

2.
Smita Rathore

1.
Dev Shankar Shukla

3.
Sandeep Kumar

Don't take it from us, Take it from them!

sengar.devanshi0191 Well, this is a good app for checking your progress in studies...this helps me a lot...and explanation helps me keep going..good saathi keep it up

aman_kumar_gupta_ Well, this is really really a very good app available on both Android and iOS This really an amazing app for studies I liked this app very much by this I have really improved my studies and progress I really loved this app

suman Sharma

★★★★★ 10/15/22

Best app for revision and testing yourself. I do a test after understanding every chapter and it helps me alot. Regretting way haven't I know about this app.

Shikha Mishra

★★★★★ 10/6/22

Really really helpful app for students as well as teachers. Not only assigns homework/test but also gives explanation of incorrect answers and report of every student including rank in class is it's U.S.P.

Sadhana Taunk

★★★★★ 7/15/22

Saathi app is thoughtfully designed app to help students gain more practice and opportunities for gaining better exposure to high order thinking skill questions. It provides a channelized schedule and design where in the students can explore their best performance

Kantharao Maths

★★★★★ 8/5/20

it's an amazing app.this app is a must for every child who wants to make his concept crystal clear. this app is great for learning especially in this digital age. the app will help the students to increase their efficiency and speed while answering the questions asked in quizzes, online exams etc. The analysis and scorecard are very useful which will motivate students to do better next time. this app contains questions as well as their solutions.

Neha Chakradeo

★★★★★ 7/25/22

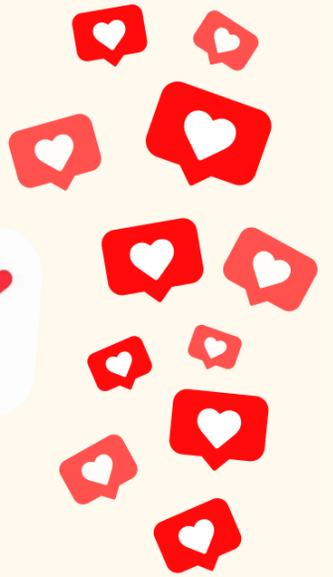

Class Saathi is an amazing app which covers the contents of the textbook in the form of questions of different types. It is a user friendly app with a simple interface which anyone can use easily. I strongly recommend the students of classes VI and above to use this app and practice variety of questions from the same.

Nidhi Singh

★★★★★ 9/6/22

It's very helpful for students and teachers both.
