2022

DECEMBER

Mera Saathi School Aaya

In November, Class Saathi visited more than 6 cities in Uttar Pradesh in a span of 15 days. We visited those schools that have adopted Class Saathi's self-assessment and performance-tracking solutions. At Class Saathi, we have always believed in having one ear to the ground and mindfully adapting to their needs while pushing the bars of "access to technology" across schools of varied geographies.

We met more than 15 Super Teachers. These teachers have not only increased learning outcomes in their classrooms, they have instilled pillars of independent learning in their students, thus driving learning, engagement, and necessary 21st century skills.

WHAT'S NEW IN CLASS SAATHI?

5 NEW SUBJECTS

2300+ QUESTIONS

LIGHTNING FAST UI

In our latest update to Class Saathi our development team led by Syed Jamal, spearheaded by Piyush Agarwal have pushed the performance of Class Saathi app to create a much more intuitive and light-on-the-eye ecosystem for you. Anchored by Jayalakshmi Krishnan we've been talking to users on the ground to hear more of what they require.

Frequently and unanimously we heard you ask for Class Saathi for Social Sciences and English. And that's exactly what we're bringing to you with our latest update.

5 New Subjects

History, Geography, Civics, English and Economics.

Class Saathi Success Story

Every month, we will celebrate a success story stemming from classrooms across India. This month we have Santosh Kumar Yadav, a Pre Composite School teacher from Parvatpur, Uttar Pradesh. He has been a pivotal example of making education more accessible to students and believes that Class Saathi can make a huge difference in reducing education inequity.

Q. Tell us about your experience with Class Saathi?

Shubhangi, Team Class Saathi

A. When I saw Class Saathi, it intrigued me and made me curious. I wanted to try it as the government was interested in introducing Class Saathi in education. And I made the best decision by trying out Class Saathi.

I've certainly noticed a difference when students started using it. Students are genuinely interested in their subjects and have showed great response. Many of these students are from rural areas. They have limited exposure to the subject and the multiple choice questions type. Class Saathi has solved this issue. The upcoming exams of these students are in multiple-choice format. I can teach a topic and assess the student's knowledge through the Class Saathi quiz feature.

Santosh Kumar Yadav

Q. Have you been using Class Saathi to prepare for exams and how was the student's response?

Shubhangi, Team Class Saathi

A. Yes, we use Class Saathi regularly. As a school, we make sure that we use it at least once a week. I use Class Saathi after every chapter. The quiz feature allows the teacher as well as the student to know how much they were able to understand a certain topic. It is a good tool to test the student's knowledge and to revise topics. There are also competitive exams that are coming up that only have multiple-choice questions. Without Class Saathi, students here couldn't have prepared for it effectively. But now, as students are using Class Saathi, they gain a lot of knowledge and know how to face these exams.

Santosh Kumar Yadav

Q. What was the students' experience when they used clickers in class?

Shubhangi, Team Class Saathi

A. After the introduction of Class Saathi in our education, there are no boring classes. Every class is lively and 100% students are engaged. Students who were timid have started engaging. Backbenchers who don't usually pay attention in the classroom are being attentive and engaging. As a teacher, this makes me happy.

Santosh Kumar Yadav

Q. How was the class engagement before and did it change after using Class Saathi?

Shubhangi, Team Class Saathi

A. Before Class Saathi was introduced, I'd walk into a classroom, teach the topic and leave. But, how would I know that my teaching was effective? How would I know that the students were attentive and learned something that day? Class Saathi has changed this. It not only increased the engagement of students but also increased the efficiency of what the students were learning. They are now eager to respond. Since the teacher can see the class ranking in the app, I call out the top three students and ask the class to congratulate and cheer for them; this encouraged other students to engage more because they wanted to be among the top students as well.

"Jab se hum yeh activities kar rhe hai, unka education ke prati jo lagaav hai, woh bi badh raha hai, class mai toh maja aata hai unko"

Santosh Kumar Yadav

Q. Do you feel Class Saathi has affected your assessment preparation time? Please share your experience.

Shubhangi, Team Class Saathi

A. Traditionally, after you teach a certain topic and want to test students on that particular topic, you will need to prepare a quiz, ask the students to note it down. They answer the questions and there's the evaluation part. It is time-consuming and mentally challenging at some times. Class Saathi has solved it. all you have to do is choose the questions and provide them to your students. If a lesson includes many topics, you can even choose one of them, which is useful if you want to target or focus on a particular topic.

This is amazing! It is not consuming your time, but rather saving our time.

Santosh Kumar Yadav

Q. How has Class Saathi helped you manage your teaching time better?

Shubhangi, Team Class Saathi

A. Honestly, Class Saathi is saving teachers as well as students time. All the material is available on the app, I can instantly receive and correct student responses. I am also able to check which students have answered and which haven't. As soon as I get to know which student has given the wrong responses I correct their concept instantly. Earlier, if I had to manually check all the responses and that would leave me with barely any time to correct the concepts. It used to be a time consuming process. Class Saathi has really helped a lot.

Can't say more about it but the content and features are amazing

Tanvi Gupta

★★★★★ 16 November 2021

It is a wonderful educational app. very user-friendly. Being a teacher, I can assign the homeworks and plan the future homeworks also in advance in no time from their resources. The live quiz feature is simply superb. exciting for students as well as teachers... This quiz feature has really helped me in my portfolio assessment.

★★★★★ 10/15/22

Best app for revision and testing yourself. I do a test after understanding every chapter and it helps me alot. Regretting way haven't I know about this app.

Shikha Mishra

★★★★★ 10/6/22

Really really helpful app for students as well as teachers. Not only assigns homework/test but also gives explanation of incorrect answers and report of every student including rank in class is it's U.S.P.

Sadhana Taunk

★★★★★ 7/15/22

Saathi app is thoughtfully designed app to help students gain more practice and opportunities for gaining better exposure to high order thinking skill questions. It provides a channelized schedule and design where in the students can explore their best performance

Vijay Gajbhiye

★★★★★ 8 October 2022

It's very effective for student's learning

SHASHIKALA KUMARI

★★★★★ 3 November 2022

Helpful for practices also interesting like a game its makes science and math easy 😊
