About Class Saathi

Class Saathi is a clicker based smart classroom solution that makes formative assessment easy and fast.

Class Saathi is a combination of a clicker device for each student and a mobile application for teachers, parents and the administrators. After teaching a concept in a class, the teacher can ask a few questions using Class Saathi to gauge the understanding level of each and every student. The administrators and the parents can also see the learning data on their respective apps. Class Saathi app has over 30,000 questions in all subjects for students of Class 3 to Class 10 and is based on the CBSE curriculum. Over 8 million questions have been solved on Class Saathi as of March, 2023.

Class Saathi is aligned with New Education Policy's objectives of micro-learning and continuous assessments. "Data First" approach ensures greater accountability at all levels. Class Saathi is affordable and does not require schools to upgrade their infrastructure ("no internet" and "no electricity" are no more the limiting factors in making classrooms smart).
